

Sound Alert Technology plc – Southern Demo Directions & Map

Situated about halfway between London's Heathrow and Gatwick airports, approx 25 miles South West of London, our demonstration facility is easy to reach by road or train.

By Road from M25 Junction 10:

At M25 / A3 intersection, take A3 towards Guildford & Portsmouth NOT London. Get in the left hand lane on the slip road, which is around 300 yards long and after 200 yards (BEFORE joining A3 proper) there will be a lay-by on left followed immediately by a small left turn, signposted Effingham and Hatchford which takes you along a winding lane through a forest. After 2.3 miles you meet a T-junction. Turn right and then immediately left onto the road taking you over a hump back bridge (Effingham Junction railway station). You are on the road that leads you to the top of the map (below); from the Station it is 1.7 miles to the double mini roundabout junction. Turn left and immediately right into Church Street, which leads into Browns Lane - the demo facility is at Effingham & Leatherhead Rugby Club within the King George V Complex. Meet in the car park. It should take around 10 minutes to get from the A3 to the demo.

By Train:

From London Waterloo, take the Guildford via Cobham service. Please make arrangements in advance to be collected from the station.
